Where miles become moments

The year is slowly drawing to a close. With this in mind, it's all the more important to make the most of every moment. To set new goals, go on new journeys and make new plans.

In this latest autumn/winter issue, we've once again put together a selection of branded items, highlights and carefully chosen brands covering aviation, technology, design and lifestyle – including surprising fashion collaborations, high-quality travel collections and smart technology. In other words, we've gathered everything that makes indoor and outdoor life more active, more stylish or simply a bit cosier.

Make the most of your miles: that's the best part.

We hope you enjoy browsing, discovering and redeeming your rewards.

More sound, more innovation, more possibilities: Discover smart technology and digital highlights in **Electronics** from **page 24 onwards**.

Endless possibilities

You're heading to your gate: The wheels of your suitcase glide across the floor, quiet as a whisper. You glance at your wrist. Your smartwatch reveals that you've done 10,000 steps.

Before boarding: You take another look in your hand luggage: Amenity kit: tick. Universal adapter: tick. Gifts for home: tick.

On board: You put your headphones on and activate noise cancellation. Just a bit more work on your laptop. Then a film to help you relax.

At home: You fire up the gas barbecue. The table fire lights up the clear evening sky. Your favourite playlist is playing from the Bluetooth speaker. It's a good day. Because the whole world is your home. Because variety is what makes moments like this possible.

With curated products from Worldshop that suit every aspect of your life.

Iconic travel companions

Stylish flyers

What do Montblanc, BOSS and WMF have in common? Us. They are all partnered with Lufthansa, and thus with a piece of aviation history. This is how unique special editions are born. The Lufthansa DNA shines through in every piece with our name and the iconic crane. No half measures. No compromises. Just fashion that stands out. Trainers made to be put through their paces, cutlery for first-class dining and accessories that give historic aircraft parts a new lease of life. This special range is ideal for all those who appreciate premium brands and love flying.

A look back through history

Lufthansa has been connecting people, cities and continents for 100 years. To mark this anniversary, we are telling the story in a new way with a collection that shines the spotlight on two icons of aviation: the Junkers Ju 52 and the Lockheed Super Star. From WMF First Class cutlery styled after the Ju to luggage that captures the Super Star vibe, to exclusive Montblanc editions – every piece embodies the history of aviation.

Time for a lesson in aviation history

The **Sinn Lufthansa Edition 103 St Sa ‘100 Years’ Automatic Chronograph** reinterprets the tradition of classic pilot’s watch chronographs with an exclusive anniversary edition. The distinctive subdials follows the traditional design principles of professional instruments: high-contrast, textured and crafted with attention to detail. The distinctive dials, the subtle accents and the hour markers ensure an optimal level of readability. The stainless steel case emphasises the watch’s technical look and feel whilst also lending it its robust everyday practicality. This special edition, limited to 100 pieces, will be available from **1 October 2026** – whilst stocks last.

Back from the past

Cassettes, mixtapes, Walkmans – they disappeared for a long time, but now they’re making a comeback. And with good reason. Because retro isn’t just a trend, it’s a statement. It represents a move away from mindless scrolling and towards mindful listening. Insert the cassette, press Play and enjoy the music. The slightly fuzzy sound is a must. No skipping, no algorithm. Analogue technology with an upgrade.

Cabasse & Love

For more than 70 years, Cabasse has been shaping its own personal vision of sound. Their speakers are made by hand in the company's own workshops in the heart of Brittany – by specialists who have utterly mastered their craft. Cabasse is synonymous with high-end French audio – the kind where you can't help but prick up your ears. Acoustics as sculpture, technology as art. Hi-Fi with a vision.

Go, go Carrera

Tight corners, fast straights, tense loops. Carrera brings generations together to create memories that last long after the final lap. Are you up for a race?

Then get ready to hit the gas. Everything you need to host exciting races and the playtime of your dreams at your own home is waiting for you at worldshop.eu

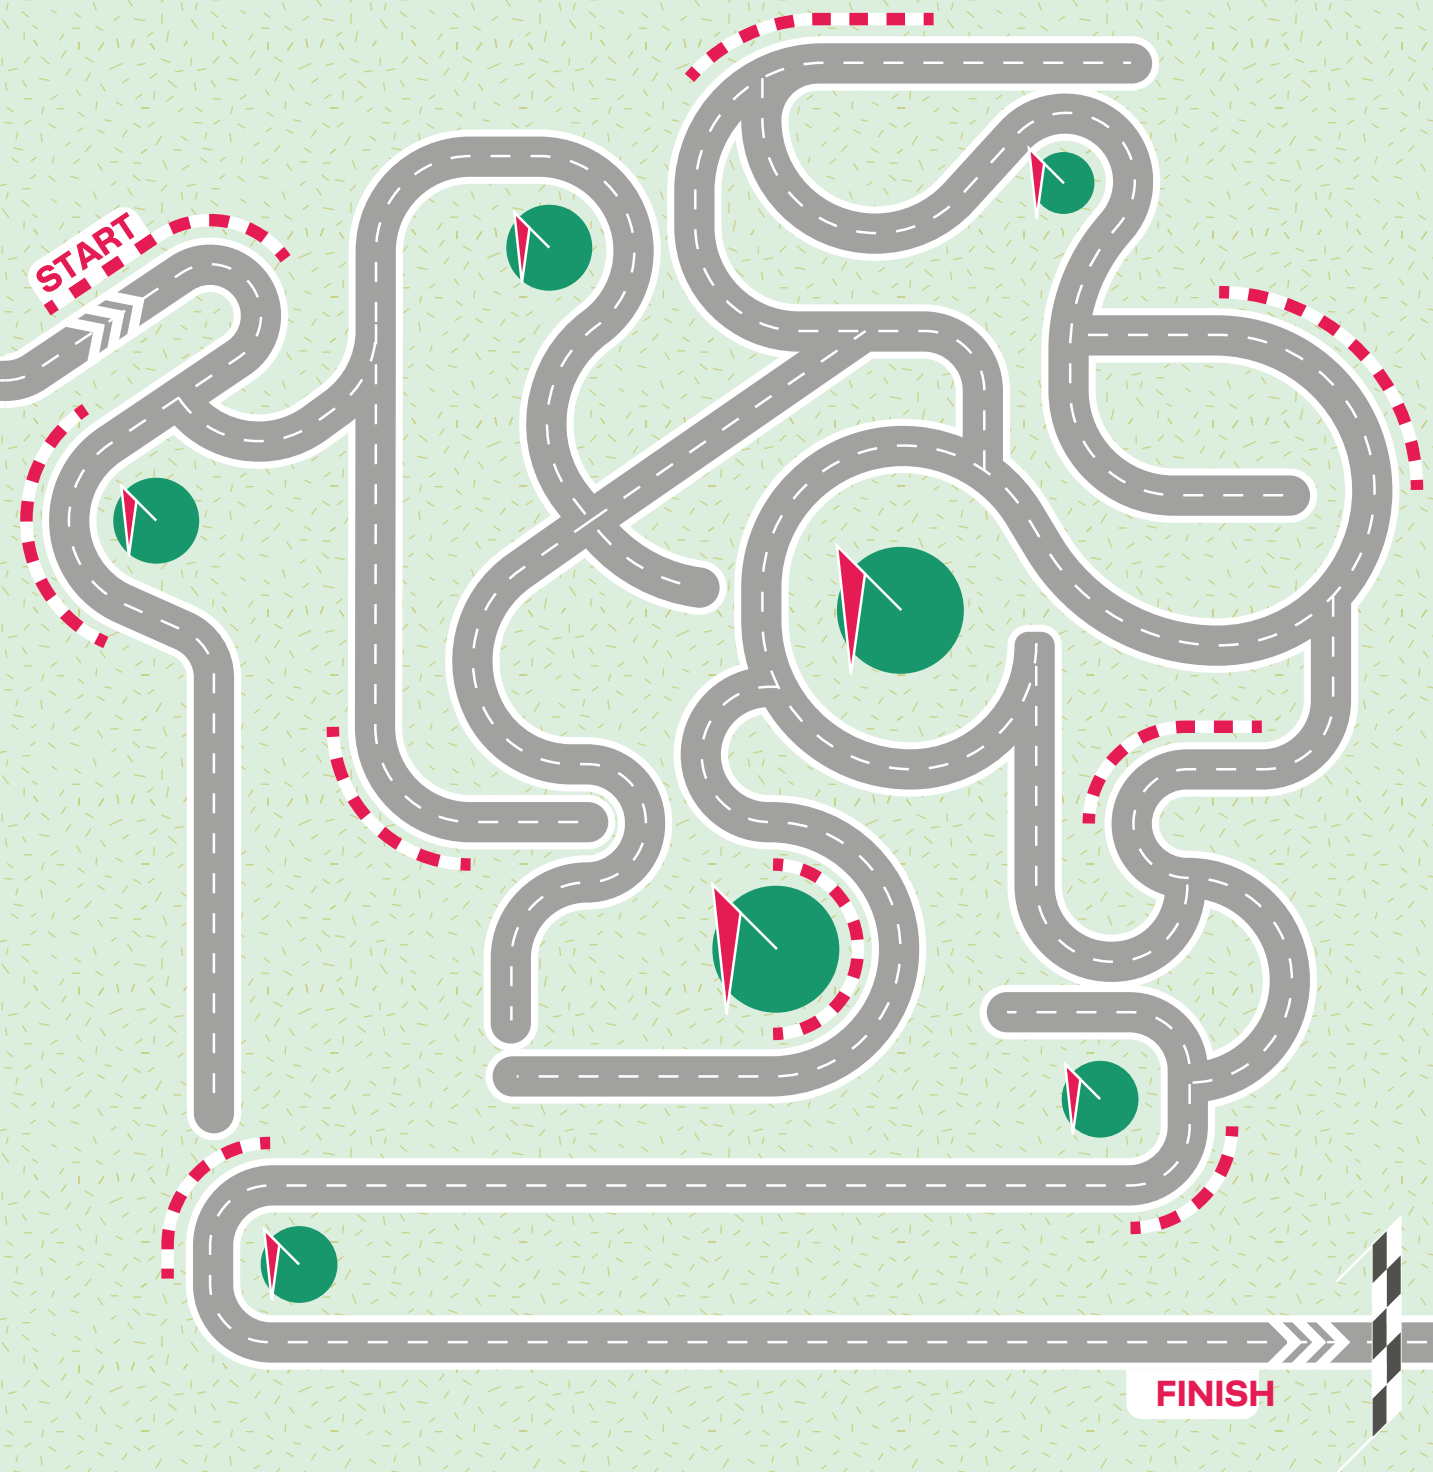

Learning curves

Wherever children play, the world is a little bit better – whether that’s at home, outdoors or on a plane. After all, playing helps form important pathways in their brains. Building blocks help develop spatial awareness, jigsaw puzzles help build patience and search games help improve concentration.

Any ordinary afternoon can quickly turn into an adventure. You can find yourself sitting on the floor, right in the middle of a fantasy world where cardboard boxes are ships and blankets are caves to explore. Play gives children the space to try things out and grow, and also reminds us how easy everything can feel. Shared moments.

Who will find their way to the finish line?

The track is clear. Just tap Start and you’re off! Race round the bends and try to find the right route. And if you ever get lost, don’t worry. You can just start again from the beginning. **On your marks. Get set. Go!**

Reflect, recycle, reuse

The desire for change. The personal drive to better oneself. To do good and be more mindful of the environment. Our more sustainable products help you to take this journey, step by step. Their manufacturing process conserves resources and minimises environmental impact. Discover items made from recycled or upcycled materials, featuring bio-circular plastic or reputable certification labels. A more conscious choice – for today and for tomorrow.

One symbol, huge impact

Our leaf symbol indicates more sustainable items that meet at least one of the criteria listed below. This way, you can see right away what kind of product it is and make a more informed choice when shopping.

Products marked with the leaf symbol include those that are:

- Made from at least 60% bio-circular plastic
- Certified as sustainable by reputable authorities
- Made from at least 60% recycled or upcycled materials
- Cosmetics containing no silicone and microplastics
- Certified textiles, wines or spirits

Details about our labelling criteria and links to the certifying bodies can be found online at: worldshop.eu/more-sustainable

Healthy Times

As we all know, the way to another's heart is through their stomach. And the same is true of one's own heart – especially if you maintain a balanced diet. After all, if you look after yourself properly, you'll feel better all round, day in, day out.

That's what the latest food trend, "Fibremaxxing", is all about. Instead of counting calories, the focus is shifting to fibre. The idea is simple: Load up your plate with more vegetables, fruit, whole grains, pulses, nuts and seeds. Cabbage in particular, in all its forms, is a superstar when it comes to fibre. The recommended intake is at least 30 grams per day.

Fibre not only keeps you feeling full for longer, but also supports healthy digestion, stabilises blood sugar levels and is good for your gut and heart health. Even small changes can make a noticeable difference. Fibremaxxing serves mindfulness, right on your plate.

The birthplace of gin

Amsterdam is colourful, bustling and full of charm. And it also happens to be the city that created a fine spirit distilled from wild juniper. That spirit was called jenever, but today it's better known as gin. Anyone wishing to follow in these footsteps and be inspired by this city full of canals, history and delights can fly to the Venice of the North in complete comfort with the airlines of the Lufthansa Group.

A clear recommendation

Oyster Adriatic Gin
42.5% ABV, Italy
12,000 M or **€40**
ITEM-NO.: 1777202

A good gin is something you experience with all your senses – long before the glass even touches your lips. Few other spirits are as strongly characterised by their origins, philosophy and the botanicals they contain. Every distillate bears the hallmark of its region.

And the same goes for Oyster Adriatic Gin from Italy, which hails from the Adriatic and is characterised by the crisp flavours of the coast: citrus zest, sea salt and Mediterranean herbs. And this is where things get exciting, because the characteristics of this gin can also be found in the queen of seafood, the oyster. Salt, iodine and a cool, mineral freshness. The two complement each other perfectly as if nature itself had paired them. And the bottle, with its oyster-shaped design, reflects this connection. It's a combination that's endlessly nuanced.

Our Wine Shop brings taste experiences like this straight to your glass. Spirits, specialities and wines from around the world – for moments that mean more.

A tranquil trend

Trends come and go, not unlike passengers at an airport. The same goes for trends in the great outdoors. Canoeing, trail running, or paragliding for a bit more of a rush – each take their turn in the spotlight. In the end, what matters is whether it does you good. It's fitting, then, that the current trend is birding. You might be asking yourself: So, it's just watching birds? And you'd basically be right.

But there's much more to birding than that. It's all about silence, suspense and discovery. It's about getting out into nature, away from the sensory overload. You wait, look around and listen to the various bird songs. In the end, you'll be more than rewarded with the long-awaited sighting. It also helps you to practise patience, reduces stress and boosts your cognitive fitness. Why not try it for yourself and go on a birding walk the next chance you get?

We've got the right equipment. But the most important thing is something only you can bring: Time.

Observe. Capture. Share.

The eDiscovery 10x42 combines 10x magnification with high-light-transmission optics and a built-in camera, without compromising on ergonomics or image quality. Observe in detail, capture moments forever and share your perspective in real time. Whether you're experiencing nature, watching wildlife or having a family day out, the Steiner Connect 2.0 app lets you zoom in on, analyse and share crystal-clear images straight from your smartphone. This makes every observation an experience that you can't just see, but also record and share. The intuitive controls, both on the device itself and via the app, ensure that you can focus entirely on the moment.

Good cosmetics don't need flowery words, just quality ingredients. With the likes of plant extracts from organic farming, hyaluronic acid and grape seed oil, brands such as Annemarie Börlind, Babor and M. Asam make use of active ingredients that really do make a difference. Quality Made in Germany. The result is creams and serums that moisturise, smooth and soothe.

It's when you're travelling, in particular, that you realise just how much of a difference good skincare makes. When the climate, air quality and time zones change, having the right products can quickly restore your skin's balance. And, as a bonus for when you're on the go, these natural products are also available in a handy travel size.

Travelling changes the way you see the world, and sometimes your perception of time as well. Be sure to make the most of every moment with our selection of watches, jewellery, glasses and bags from carefully selected international brands.

Timeless accessories

The history of timekeeping

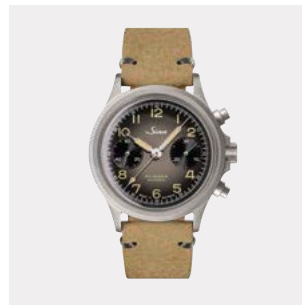

The fact that we wear watches on our wrists today has a lot to do with the history of aviation. When the first aviation pioneers took to the skies, they needed a timepiece that they could read even whilst in the air. They couldn't take their eyes off the horizon for long, which meant they could hardly use the pocket watches of the time.

That's how the pilot's watch came about, with its large, sturdy design and clear clock face. This design principle continues to shape the way we wear time as a fashion statement on our wrists to this day.

Today, watches don't just tell the time, but also tell a little bit about us. Our taste. Our personality. Could that perhaps be the true purpose of watches?

Wheely versatile

Built to last. That's why, right from the start, we designed our suitcases so that any damage to the luggage can be easily repaired. Good for you and for the environment. In line with our commitment to quality and sustainability, our service team at the Worldshop Airport Stores personally takes care of minor repairs.

From first class to flip-flops. From business trips to family outings. Whether you travel often or on a whim. The Lufthansa Travel Collections are just as versatile and unique as you are.

The design is one thing, but there's also another sweet-sounding detail. One you can barely hear: four whisper-quiet, ball-bearing-mounted dual-spinner wheels. They allow our trolleys to glide across airport floors, cobblestones and kerbs without a sound. Super quiet. Super smooth.

That's how you know a suitcase has been thoroughly designed by professionals. Developed in close collaboration with pilots and crews. Featuring soft-close carry handles, clever internal partitioning and a design as iconic as the crane itself.

Premium luggage for all the miles ahead.

First and Business Class Edition

The First Class and Business Class special editions pay tribute to Lufthansa’s passion for excellence, which helps it deliver unique travel experiences. The luggage is inspired by the materials and colour schemes of the Lufthansa Allegris cabins and gives the functionally optimised design a special customised touch.

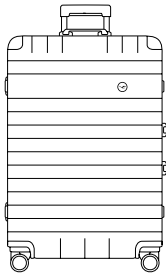

Features
Cleverly designed internal partitioning, including a packing cube and a shoe/laundry bag set in an exclusive dark blue colour scheme.

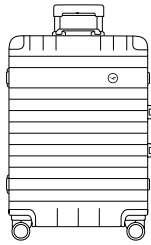

Elegant design
A bronze-coloured outer shell and a dark blue lining with a subtle wing pattern.

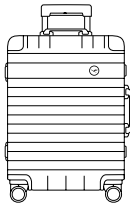

Telescopic handles
Infinitely adjustable telescopic handle and soft-close carry handles with a return spring for convenient handling.
